Secretary's Desk

After a gap of two years on account of lockdown, 2022-23 was the year when normalcy returned to PYDS. Not only did we have uninterrupted operations and classes, much to the joy of all of us, trips and co-scholastic activities also resumed with vigour. We celebrated our Annual Day after a gap of two years with excitement and fervour.

The annual admission exercise for Navjeevan students took us deep into remote underdeveloped areas of District Pauri. We were able to find 18 bright young minds who are now benefiting from the opportunities provided by our Navjeevan Program. The outreach of our *On To Life* program, that supports post school education for our students was enhanced to cover more than 70 courses across 10 colleges and universities, with 33 students from the batch of 2023 benefitting as a result. Academic initiatives launched previously - Project based, Cross curricular and Experiential learning, struck firm roots across all classes.

We completed construction of a multi storey toilet block, significantly enhancing the convenience and sanitation facilities available for all of our students and staff. We are now working on upgrading other facilities around the School.

Looking forward into 2023-24, our focus will be to evaluate the impact of our academic initiatives and bring about changes necessary to enhance their efficacy, further the outreach of our *On to Life* program through an even wider offering of both academic and vocational programs. We also aim to enhance the size of our next Navjeevan batch to 25 students. By doing so we will be fulfilling a long cherished dream of our Founder Mr Swamy, that of taking the PYDS opportunity to the largest possible number of children from remote locations who have virtually no other opportunity for obtaining quality education.

On behalf of the communities we serve, I acknowledge the support we have received from all our patrons in multiple forms.

Meeting the Horizon

More than 20 years ago, PYDS embarked on an ambitious journey to bring education to the underprivileged communities of Purkul village of Dehradun. Our founder, Mr G.K. Swamy understood that, without such help, these communities stood little chance of catching up with mainstream society.

Children in the vicinity were eager to learn, but could not access schools in the city due to financial constraints. Those who managed to enrol in the city schools, were unable to cope with the standard of education there. Mr Swamy began tutoring four local children, after school, in his home. These children came to him on their way back from school, due to lack of transport facilities. Mrs Swamy served healthy snacks to the children before they sat down to study. They returned home by evening after studying for three hours.

Every year a new batch was added to the free after school tutorials. As batches increased, teachers and cooks were employed and classes had to be shifted to rented buildings nearby. However, the thought of building a school, at a time when classes were being held in makeshift rooms, divided by thermocol sheets, was far-fetched. As the determination was strong and the purpose noble; the right kind of help arrived whenever needed. Like minded people, from various backgrounds and nationalities stepped forward to contribute and build the PYDS we see today.

The idea at that time was, "to provide education in English medium to the poor village children and aid their upward mobility for good professional aptitude."

"Money just seemed to materialise from nowhere. Every time it seemed like there was no hope, something happened to give us hope" - GK Swamy.

Mission

- To enrol needy and deserving children, preferably from the remoter reaches of Uttarakhand
- To provide holistic care and education, including life skills and value systems through a combination of wholesome nutrition, adequate health care, high quality academics and extra curriculars
- To be recognised as a Centre of Excellence

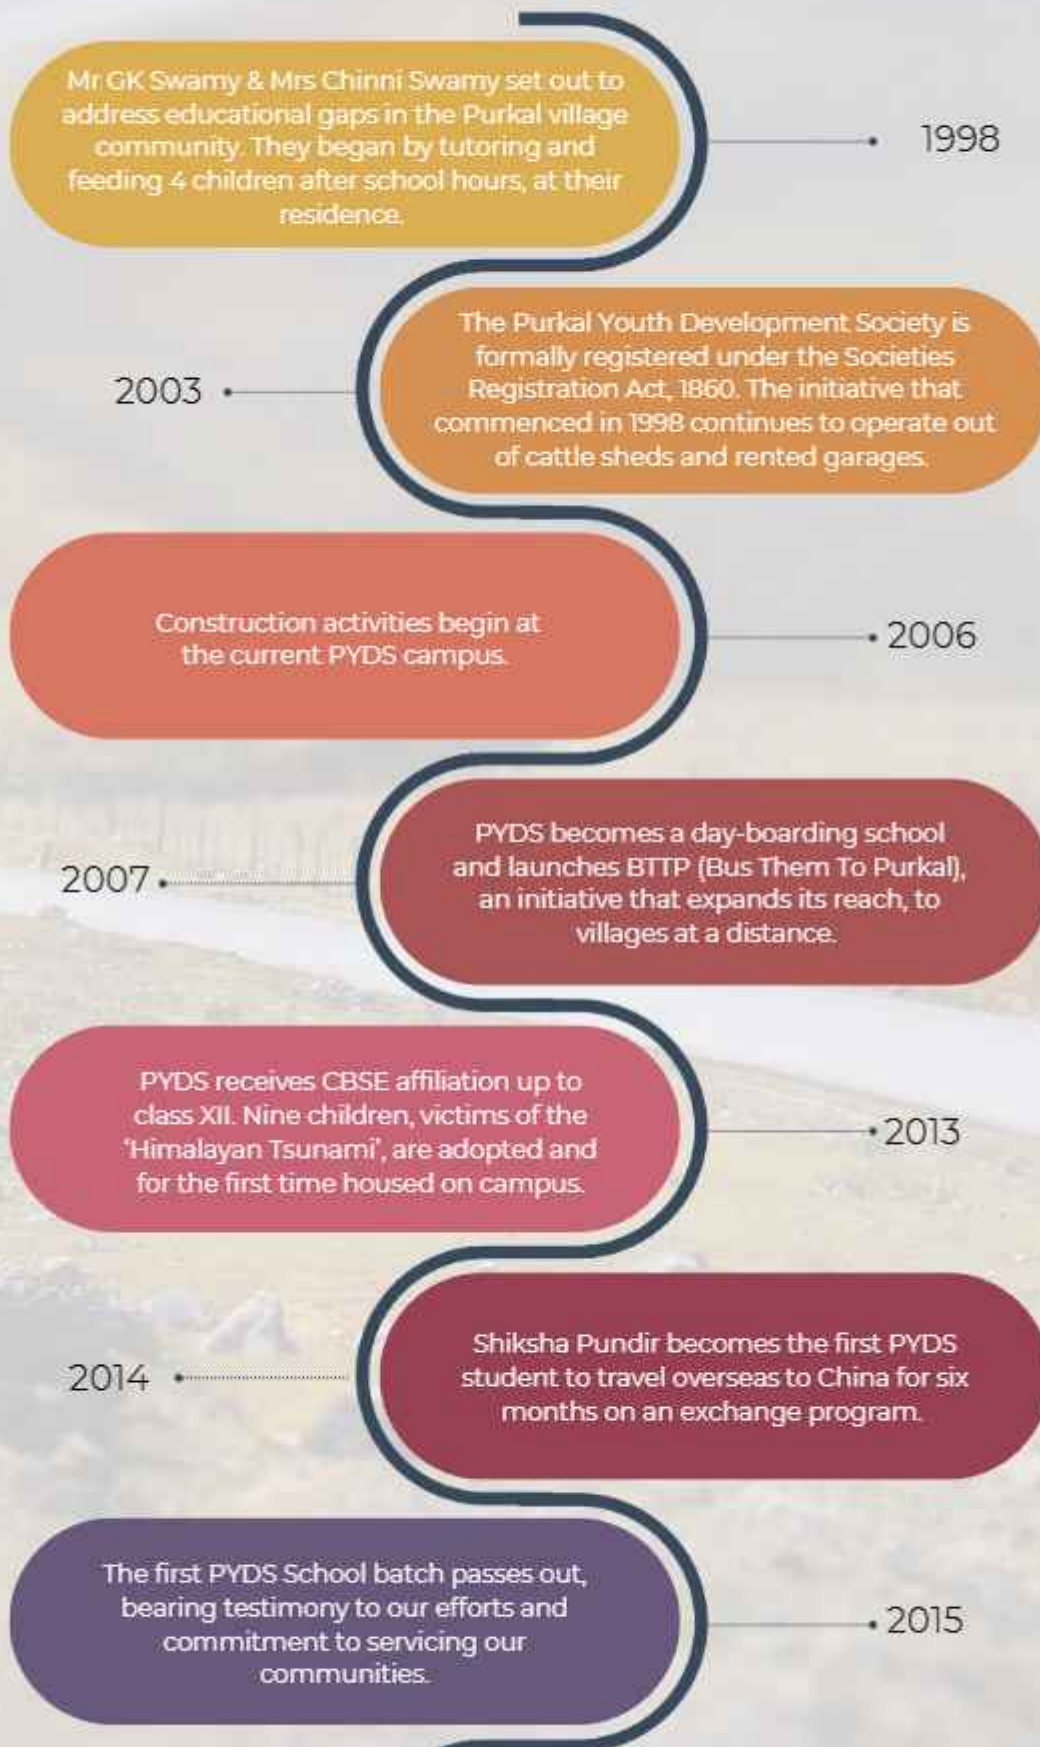

Vision

To produce future agents of change who will transform the socio-economics of the backward areas of Uttarakhand.

Philosophy

To run a caring and giving ecosystem that enhances each and every life it touches – of our children and their families, as well as our teaching and caring staff.

The Journey of PYDS

2016 •

Girls' hostel is constructed on campus and boys' hostel is started in a rented house close to campus.

The first batch of the Navjeevan program commences, enabling the PYDS opportunity to reach children in the upper reaches of Uttarakhand

• 2017

2019 •

Mr GK Swamy retires from an active role. Mr Anoop Seth is appointed as the Society Secretary.

Government announces a nationwide lockdown due to COVID-19. PYDS implements various platforms of digital learning.

• 2020

2021 •

Curriculum is digitised, laptops are distributed to all teachers and the campus is Wi-fi enabled. Student strength crosses 500 for the first time.

Full campus activities resume with all students returning to physical classes after a gap of two years.

• 2022

2023 •

Running two batches of Navjeevan simultaneously for the first time, taking our geographical outreach to 8 districts of Uttarakhand.

Governance

PYDS is governed by a Board of Directors who work pro bono to oversee its management and operations. None has drawn any fees or travel expenses of any kind or manner. All Directors contribute through their expertise and resources for the growth of the Society. In line with best governance practices, our Board Rotation Policy requires that Directors are elected every three years. The Secretary is appointed for a five-year term.

Adwait Hebbar: Chairperson

- Mr. Hebbar has spearheaded the sustainability and CSR agenda within IndusInd Bank for one decade. He has worked extensively in the areas of education, livelihood, healthcare, inclusion, empowerment, environment and sports.

Vijay Toley: Director

- Mr. Toley is the Executive Director of Tex Corp Ltd. With an extensive network of contacts around the country, he has been instrumental in constantly fundraising for us.

Vikas Gambhir: Director

- Mr. Gambhir leads the social sector practice at Grant Thornton LLP. With an experience of over 25 years, he has worked with social entrepreneurs and not-for-profit verticals across several themes like healthcare, education, environment and consultation.

Ranjana Rawat: Director

- Mrs. Rawat is a qualified family therapist, a certified practitioner of solution focused brief therapy and a parenting coach for children with learning disabilities and behavioural issues. She is deeply involved in social work across Uttarakhand.

Nikhil Naredi: Director

- Mr. Naredi is currently a Partner in one of India's leading law firms, Shardul Amarchand Mangaldas. He is a corporate lawyer with over 17 years of experience with stints in Mumbai, Singapore and New York. Coming into contact with Mr Swamy in 2012, he has played several important roles for PYDS and its students over the years, including that of a donor, advisor, volunteer and fund-raiser.

Sanjiv Bathla: Director

- Mr Bathla is the Founder Head and Director at The Oberoi School of Integrated Studies, Dehradun. He has headed three schools as Founder Principal. He is a postgraduate in Management Studies from London Executive College and a MBA Essentials from the London School of Economics and Political Science.

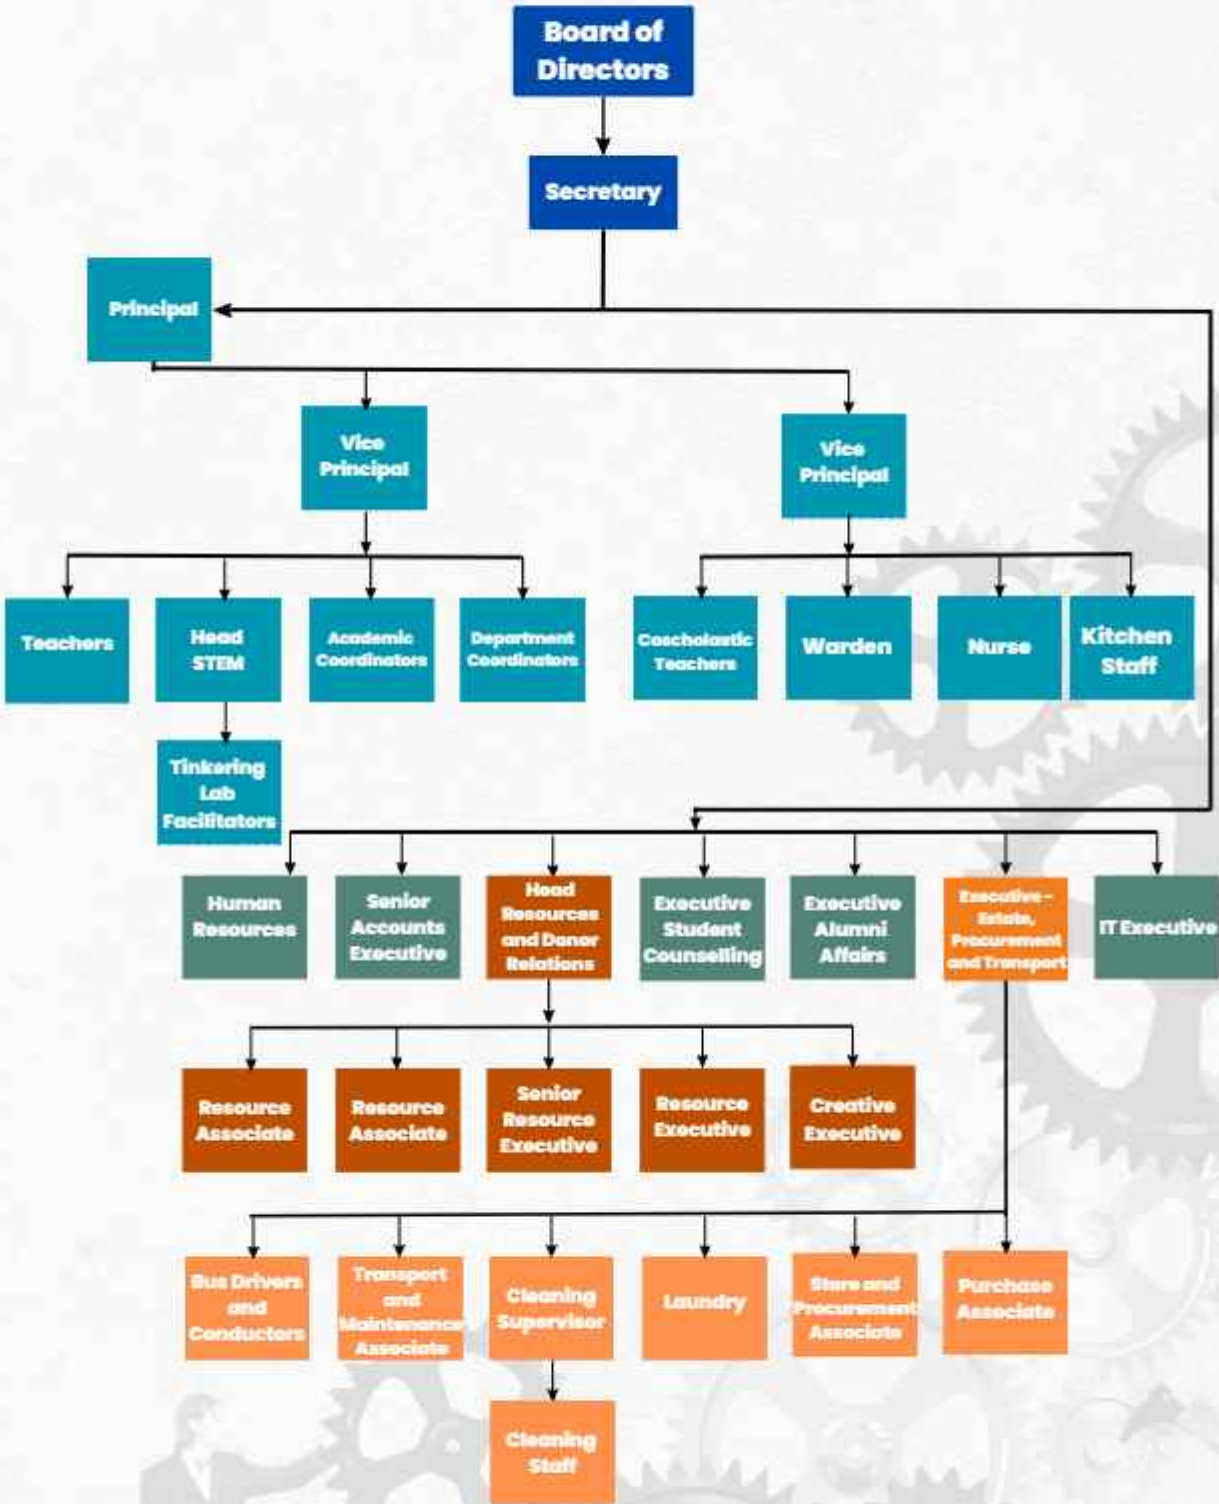

Ankur Bahl: Director

- Mr Bahl is a professional mariner and an accomplished mountaineer, having climbed the seven highest peaks in the world including Mount Everest. He has a deep commitment to enhancing standards of school education. He is actively engaged with our post school and fundraising initiatives.

Anoop Seth: Director and Secretary

- Mr Seth is a former financial-services-professional and a long-time donor. He has been a Director since 2016 and Secretary since July 2019. He is engaged full time in the services of PYDS.

Organogram

Pillars of PYDS

Holistic Education

We aim to impart holistic education that recognizes the importance of developing the social, physical and emotional aspects of students.

While preparing children for adequate employment is our main goal; it is not the only one. We also aim to raise their level of consciousness and to develop their personality in a comprehensive manner. To accomplish this, students are trained in music, dance, art, yoga and sports to develop all aspects of their mental, emotional and social lives.

To expand the experience of students about new places and people, they are taken on educational trips away from Uttarakhand. They are encouraged to do things on their own to get them out of their comfort zone.

Dev Verma - Class XI

Dev joined PYDS in 2010. As a student, in spite of knowing answers he did not know how to frame them. His teachers worked closely with him to improve his presentation skills and he improved with time. His speech became more polished and with time he became more affable.

To fulfil his aspiration to join the National Defence Academy (NDA) and serve the nation, he joined a boxing school near his home to build his physique. There came a time when he became so passionate about boxing that he would miss school to prepare for tournaments.

After being counselled by teachers to balance his time and prioritise, he began to take studies seriously. Dev tried his hand at Art too and has painted several canvases on the 'boxing' theme. The cherry on his efforts was when he topped the school in class X board exams with an aggregate of 92.2% marks.

Presently he is the leader of 'Amaltas House'. He has chosen Physics, Chemistry, Math and Computer Science in class XI and is looking forward to embarking on a fulfilling future.

Wholesome Nutrition

Hunger and illness can become considerable roadblocks to a child's development. A hungry or unwell child cannot be expected to pay attention to school learning. Implementation of a comprehensive and wholesome nutritional program is thus a priority for us. We consider serving nutritious meals to the students as one of our fundamental objectives. All of our 509 children get breakfast, fruit and lunch every day of the school.

The 123 residential students also get evening snacks and dinner on all days when they are on campus.

Chandani Verma - Class VI

Chandani is a student of class VI. She lost her parents as a young child and has no memory of her family home. On recommendation by Aasra Trust she was enrolled in our school and was taken as a hostel resident in 2017. Before joining PYDS she suffered fits of epilepsy. In partnership with Aasra Trust, we consulted doctors and she was put on medicines.

As she is on strong medication, it is important for her to take a proper nutritional diet. Chandani was a poor eater when she joined the hostel. Due to regular medicines and good nutrition, she has not had a fit, as her health has improved progressively. We are confident that with continued care and medication, she will recover fully in time.

Her height has increased by 1.1 cm and she has gained 6.5 kg weight in the past six months. Chandani is fond of studying English. She wants to be a doctor when she grows up.

Hostels

We began to offer residential facilities to students in a small way in 2013 when we accepted 6 children whose families were victims of the Uttarakhand flash floods. A fabricated hut served as our first hostel. This unit inspired us to build permanent hostel facilities for girls and boys. The intent was to be able to offer the PYDS opportunity to deserving students from remote parts of Uttarakhand. Presently we have a girls hostel with a capacity for 106 residents and a boys hostel with a capacity for 57 residents.

Local students suffering adverse conditions at home, are also accommodated in the hostel. Each resident gets a bed complete with bedding, a study table and adequate space to store belongings. Male wardens look after the boys hostel and female wardens take care of the girls. All wardens are available 24x7 and they live in the hostel they are responsible for.

School Transport

We provide safe and reliable transportation to the children and staff from the city and its northern suburbs. We also provide transport to our students from remote western villages like Rikholi, Kimadi, Shigally, Gajiyawala, Bharatwala, Bitharli and Naubigha. The school operates a fleet of seven buses that run within a radius of 20 kms from school. This ensures regular, safe and punctual transport to more than 300 students (of which more than two thirds are girls) from 31 locations of Dehradun district, 24 of which are rural.

Pundir Sisters

The Pundir sisters Sanya, Tanya and Manvi live in Bitharli village, on the western mountains of Dehradun. The area is under-developed and a narrow dirt track connects their house to the road. These girls brave a 2 km walk each way, through a jungle to board the bus to school.

For these girls, like many other children of PYDS, the school bus is the only way they can reach school, (as public transport in these areas is non-existent). On asking Sanya and Tanya how they would come to school if the bus service was withdrawn, they said, "In that case our education will end, as there are no good schools in the villages nearby. It is our dream to study hard and defeat poverty to improve the living condition of our family. We are so thankful to PYDS and the school transport, without which we could not have studied beyond class VIII of the government school".

Comprehensive Healthcare

In the absence of adequate means and awareness, fundamental habits of hygiene are easily missed. To fill this gap, our students, who mostly come from challenging situations, are taught the importance of dental hygiene, clipping nails, washing hands and so on.

Annual medical check-up is conducted for all students and their BMIs are recorded every three months.

Vaccination details, blood group, hereditary diseases, eyesight and so on, are recorded in individual 'Health Record Books'.

Regular camps on dental care, eyesight, personal hygiene and adolescence are conducted. Deworming doses are given every six months. Health boosters such as 'Chyavanprash' and tonics are given as per requirement and season.

In case a child has a medical condition that requires special care and the parents cannot afford treatment, the school steps in to help in every possible way.

Komal Bhatt - Class VIII

Komal is a hostel resident studying in class VIII, who joined PYDS in 2019 as a Navjeevan student. In early 2022, she was taken to a doctor with a skin ailment. Her illness was diagnosed as 'vitiligo', a condition in which the skin loses pigment. She was under treatment and in care of her warden, all of which she responded well to.

In November 2022, she caught chicken pox infection and was sent home, under strict instructions to continue medicines. Sadly, while at home she discontinued taking medicines and by the time she returned to campus in January, her skin ailment had returned.

Aware of resultant implications, the school authorities were eager for the treatment to continue. Hence, all responsibility and expense for her treatment was taken up by the school. The good news is that Komal's ailment is now under control and is expected to be cured completely in times to come.

Books and Uniforms

PYDS provides full summer, winter and sports uniforms to all its students including school shoes, sports shoes and floaters are provided along with two pairs each of summer and winter socks.

Besides uniforms, students are also provided with all requisite study materials like books, notebooks and stationery.

Aswal Siblings

Divyanshi of class V and Divyansh of class III are both students of our school. Their mother left their home in 2020 due to domestic strife, and their grandmother died in 2021. Their father and grandfather were unable to care for them and the children were too young to look after themselves. They would often come to school without bathing, with matted hair, dirty clothes, shoes and so on.

Their uniforms were more worn out than any student in school, as perhaps they were wearing the uniforms at home too. Divyanshi also had to do a lot of housework and lost interest in studies as a result.

Sensing the need, the siblings were given extra uniforms, shoes, notebooks and stationery when needed. They were bathed and groomed by the hostel wardens.

Eventually the grandfather requested the school to admit Divyanshi in the hostel as she was not getting adequate care at home. She has been accepted in the school hostel and has improved significantly in studies and behaviour ever since.

Key Learning Initiatives

Education at PYDS goes beyond the textbook into experiences and real world applications as these enhance students' ability to learn, think and apply. This develops them into confident, creative and caring adults.

To implement learning supported by exposure, classes I to III follow a theme-based curriculum while classes IV & V follow project based curriculum. Teachers innovate lessons, and teach through projects, role plays, field trips and presentations.

Classes VI to VIII follow a cross-disciplinary curriculum. One topic in each subject is taken as the core idea and connections are built around it with several other subjects. Languages and Computers are used as mediums to make these connections.

Classes IX to XII follow the Experiential Learning model. Together with the prescribed CBSE curriculum, practical experiences are designed for students to enable them to connect concepts with the real world.

Navjeevan

Nearly 70% of the population of Uttarakhand lives in rural areas; most of which are located in difficult geographies and lag behind in infrastructure. In a world that is growing fast, with every passing year, the chasm between the rural and urban population increases.

To take the torch of education to the remote settlements of Uttarakhand, we run a unique residential program called 'Navjeevan'. The program focuses on 9 to 10 year old children who have suffered gaps in primary education. Students are admitted through a rigorous selection process conducted in their village and nearby schools.

In school they are introduced to an accelerated program comprising English, Hindi, Mathematics and Science along with lessons in hygiene, social skills etc.

The program is spread over 18 months. Towards the end of the program, they appear for grade level assessments. Based on these, they are mainstreamed into classes V, VI, or VII.

Till date, 93 children have been enrolled in 5 Navjeevan batches; out of whom 68 (42 girls, 26 boys) have been mainstreamed. All of them are performing commendably.

Rigorous Admission Process

We admit 25 new children in class I every year; of whom a minimum of 16 are girls. As every child admitted will be a beneficiary for the next twelve years, a rigorous four step admission process is followed to select the most needy, deserving candidates. The steps are as follows:

Step 1: An entrance test is conducted (without charge) in school. Applicants appear for a written test paper that assesses their intellectual level. The application forms are simultaneously screened to determine their needy status. A preliminary list is prepared on the basis of the results of this test.

Step 2: A survey team visits the homes of these applicants to assess their socio economic status, first hand. Beneficiaries are selected based on the results of their performance in our assessments and their needy socio economic status.

Step 3: Following this survey, applicants are categorised into most needy, needy and not needy. Applicants of the first two categories are called to campus, for interaction with their parents. The children are assessed through hands-on activities and oral interaction. Teachers speak to parents to comprehend the level of their commitment towards education.

Step 4: The list of candidates is pruned further after this interaction and a second home survey is conducted to validate the report of the first survey. These surveys also give our teachers and staff first-hand experience of the socio-economic background of the beneficiaries.

Career Cell

The key role of our Career Cell is to enable our students to gain admission into good programs at quality universities and to maintain long term contact with them.

The effort begins by guiding students of class X to select subjects that match their aptitude through counselling, psychometric tests etc. Students are made aware of various career options by holding career related sessions, inviting eminent personalities established in their respective fields and professional career counselling teams to conduct workshops and seminars.

Students of class XII are guided to select optimal courses and to appear for required entrance exams. They are helped to select institutes to apply to, go through the application process, seek available scholarships and so on. Whenever it is felt that a deserving student needs to attend coaching classes to prepare for entrance exams, but cannot afford the fees, he/she is supported financially.

Our team also partners with universities and colleges to gain preferential seats and scholarships for our students. They stay in touch with our alumni in colleges to ensure their well being and to motivate them, as also to monitor their conduct and performance.

On To Life

The On To Life (OTL) program is designed to provide financial support to our alumni through their college education. In spite of keen efforts when full scholarships are not available and students need financial support, we provide long-term interest-free loans to deserving students. These loans cover their fees and ancillary requirements such as computers, accommodation, transportation etc. and are repaid by students when they start earning.

Priyanka Bhatt PYDS Alumna

An example of our OTL beneficiary is Priyanka Bhatt, who joined PYDS in 2016. Due to financial constraints at home she almost gave up her dream of attending college. It was then that she was encouraged by the OTL team, who helped her secure a seat at UPES, Dehradun to pursue B.Tech. in Electronics and Communication Engineering. She was offered a part scholarship from UPES and received PYDS support to meet other expenses related to University Education.

At UPES she was part of several student chapters and served as a branch officer at Institute of Electrical and Electronics Engineers. She took part in CSR activities, internships, industry alliances, team projects, research assignments, group presentations and so on. These helped hone her soft skills and lay a strong foundation to become a good team player and work with big corporations. While still in her final year she was placed with Silicon Labs, as an Assistant Engineer in Software Design. She joined the company in June 2022 at an annual package of rupees 21 Lacs.

Vocational Opportunity

We believe that all students are bright in their own way, although some are inclined towards vocation rather than academics. It is our endeavour to help such students enrol in suitable vocational programs.

In line with this, 2 boys from class XII and 4 girls from class X of our school were encouraged to attempt the multi step admission process to join SAATHIYA, which is a philanthropic initiative in Bangalore. It provides short term training for entry level professions in food & beverage service and housekeeping operations leading to guest service associate roles in the hospitality industry. Certificates are awarded to trainees on completion of training and ensures full-time employment placement for five years. Five of our students have cleared the program.

NIOS

Every student has potential and it is our objective that all our students complete class XII. Those who are less inclined towards academics are encouraged to pursue this aim through NIOS (National Institute of Open Schooling), which is a learning platform based on graded curriculum that ensures quality education. In parallel they are inspired to join an appropriate vocational course suitable to their personality.

A number of learner friendly vocational education programmes are offered by NIOS that emphasise practical and on the job training in related industrial units. This brings out the best in each student and helps them pursue a fulfilling career.

Saturday Clubs

Extracurricular activities are a critical component of our efforts at promoting holistic education as they develop leadership, teamwork, time management, communication, problem-solving, creativity, adaptability and similar skills among students. These skills enhance classroom learning and form a part of a well-rounded education.

Two hours of every Saturday are devoted to Club activities in which every student, class IV onwards chooses one activity out of the following 15 - "Vocal Music, Instrumental Music, Dance, Debate, Nature, Art, Tinkering, Yoga, Sports, Drama, Knitting, Magazine Publication, Competitive Exam Preparation, Fun Math and Pure Maths".

Educational Trips

Field tours are windows through which we get a glimpse of customs, traditions and people of other regions. To enrich the educational turf of our students and to expose them to a broad spectrum of cultures and traditions, excursions are organised to other parts of the country.

As they tread out of their homes and step into new environments, these journeys widen the perspective of students and help them develop independence, problem-solving skills and teamwork.

Exchange Programs

Exchange Programs are popular for learning and stimulating intellectual curiosity in young minds. Students who participate, get to travel to other countries leading to higher degrees of awareness, acceptance for cultural diversity and increase in cultural capital. Such programs enable student learning at a completely different level.

Since 2014 (barring the lock down years), our students have qualified for educational programs to pursue studies for twelve months away from India. So far 6 students have gone abroad for the Kennedy Lugar program.

Name of the Students	Batch	Program/University	Current Status
Saraswati Kumari	2014-15	Kennedy-Lugar Youth Exchange & Study (YES) Program, U.S.A	Practicing under a lawyer and preparing for Public Prosecutor Exam
Prachi Pundir	2015-16	Kennedy-Lugar Youth Exchange & Study (YES) Program, U.S.A	Working on an Organic Farming project at her village (Rikholi)
Kajal Arya	2016-17	Kennedy-Lugar Youth Exchange & Study (YES) Program, U.S.A	B.Tech (Bio Technology)- Final year
Shalini Sharma	2017-18	Kennedy-Lugar Youth Exchange & Study (YES) Program, U.S.A	Completed BA (Eco & Political Sci.) from Delhi University
			Currently, preparing for UPSC entrance exam
Sanjana Koli	2021-22	University of New Hampshire	Currently studying at University of New Hampshire (UNH), USA
Aditi Mamgain	2021-22	Kennedy-Lugar Youth Exchange & Study (YES) Program, U.S.A	Pursuing Economics Honours from IMS University Dehradun

Educational Facilities on Campus

As we promote learning by experience, a number of facilities that aid practical learning processes have been set up on campus, along with other amenities for students. Chief among them are as follows:

Tinkering Laboratory

An exclusive 1800 square feet hall, equipped with 15 computer systems, 3D printers and laser cutter/engraver and more such equipment are dedicated to the development of tinkering skills.

Science Laboratories

We have 3 well equipped science laboratories -
Physics
Chemistry
Biology.

Computer Laboratories

A Computer Lab that has 25 computers and an E-lab with 40 computer systems are available for the students. Those with Computer Science as a subject have classes in the Computer Lab; while the E-Lab is open for all students to research and study.

Performing Art Rooms

There are 3 rooms for the performing arts section -

i) **Instrumental Room**, in which children are trained to play instruments

ii) **Vocal Music Room**, where students are trained in Indian classical, western and contemporary vocal music

iii) **Dance Room**, for Indian classical, contemporary and western dance classes

Visual Art Room

This comprises of two rooms covering a total space of 850 square feet. The main room is used for drawing, sketching, painting, digital artwork, craftwork, textile art and so on. A separate room is dedicated to pottery and serigraphy.

Auditorium

The auditorium has a capacity of 150 movable chairs. It is fully equipped with sound and mike systems. The stage is fitted with automatic curtains and has a backstage green room.

Libraries

There are 2 libraries with a seating capacity of 25 students each.

The Junior Library has a collection of more than 3,000 books, educational toys and indoor games for classes I to V. The Senior Library has a collection of more than 5,000 books and 28 digital tablets to enable students to read digital content and listen to audio books.

Sports Facilities

The Sports Field comprises the badminton, volleyball and basketball courts. The table tennis room has 2 tables. There is a separate room for indoor games like chess and carrom.

Yoga Room

The Yoga room is a 40x40 feet space in which more than thirty people can practise yoga at a time. The room has all equipment required for various *yoga asanas*.

Dining Cluster

The Dining Cluster includes the kitchen, a larder, a roti making room, scullery and a dining room with a seating capacity of 150 people at a time.

Significant Campus Activities

Annual Sports

Annual Sport competitions between the four school houses are held every year. These were held between 27th September and 8th October 2022.

An entire day was devoted to events for the primary classes like the - Jalebi Race, 3 Legged Race, Balloon Race, Lemon Race, Sack Race and Tug of War.

Senior students had Volleyball, Badminton, Kabaddi matches in multiple formats. Some athletic events that could not take place in our small sports field were held on the grounds of Kasiga School, nearby.

A Marathon was organised on the final day in which all students and teachers participated.

The fortnight concluded with prize distribution for all events.

Annual Day

The 10th Annual Day celebrations were held on 24th and 25th November. The theme of the event was 'Chrysalis to Butterfly'. The teaching methodologies of the school were expressed through exhibitions and performances by the primary, middle and senior sections of school.

The primary wing showcased theme-based learning through the 'Family' setting. The middle school presented the cross curricular connect teaching method through 'Fusion and Partnership'. The senior classes' presentations were based on the experiential learning curriculum through the topic, 'Discovery'.

Two dolls, Shakti and Lakshya, who personified PYDS students, took the audience on a journey through a dance drama. The event culminated with the dolls taking off from stage and flying to the end of the auditorium after having metamorphosed into butterflies.

The Harry Potter Production

In April, 'Harry Potter' was adapted for stage production involving a large cast and crew from middle and senior school. The ambitious endeavour, from script writing to auditions, rehearsals, props and presentations were all done by students. They also screened an electronic presentation in coordination with sound and light effects that left the audience spellbound. Owing to space constraints, the play was performed twice on 30th April to accommodate our distinguished patrons, guests and the big PYDS family.

Innovative Thinking Workshop

On July 14 and 15, PYDS hosted an "Innovative Thinking Workshop" for the Tinkering Facilitators of Uttarakhand Cluster. It was attended by 25 teachers from 11 schools. It focused on understanding the needs of users and promoting design thinking to find a solution to them.

Annual Health Checkup

The annual health checkup of all students was conducted over the month of May 2022 wherein they were taken one class at a time to a City Hospital for a complete medical checkup.

Vaccination Camp

A follow up COVID vaccination camp was conducted by Bhagwantpur Primary Health Centre on our school campus on the 3rd of September. 38 students were given the 2nd dose and 47 staff members received booster shots.

Blood Donation Camp

A blood donation camp was organised on the occasion of the first death anniversary of our founder Mr. G K Swamy. Staff members, alumni and locals stepped forward and donated 35 units of blood in all.

School Management Committee Meeting

Every CBSE affiliated school is required to have a School Management Committee (SMC) that meets at least twice in a year. On 11th of February, 2023 our SMC met in person on campus. The meeting was chaired by Mrs Shefali Ray - Teacher Expert, Author & Resource Person for Oxford University Press, Mrs Arati Nagaraj - Principal, teachers, parents. Mrs Sanjala Wazir - Director & Senior Education Advisor attended the meeting online.

Board Meetings

The Board had three formal meetings, on 27th July 2022, 9th December 2022 and 25th March 2023. The Directors were updated periodically through calls to keep them informed about significant developments. During these meetings the following matters were discussed:

- Ongoing school operations
- Scholastic and co scholastic achievements of students
- Post school admissions and performance of the On to Life Program
- Funding situation and progress of fund raising efforts
- Navjeevan program and progress of students admitted in the program
- Progress of the new Toilet Block project and other ongoing projects
- Upcoming Annual Day

Awards

PYDS was nominated for the certificate of appreciation for its valuable contribution towards empowering young people by the International Award for Young People (IAYP). It was received by our Director and Senior Education Advisor, Mrs Sanajla Wazir, at the Annual Gold Award Ceremony on 5th July 2022 at India International Centre, New Delhi.

On the 17th of August, our school participated in an 'Inter School Debate Competition' at Indian Public School, Dehradun. The topic for debate was, 'Globalisation has made our lives more viable'. Diksha Chaudhary of class XII, spoke for the motion and Dhruv Om Sharma of class XI, spoke against it. Both our students bagged awards as best speakers for and against the motion.

Our students bagged three awards in competitions organised by tGELF

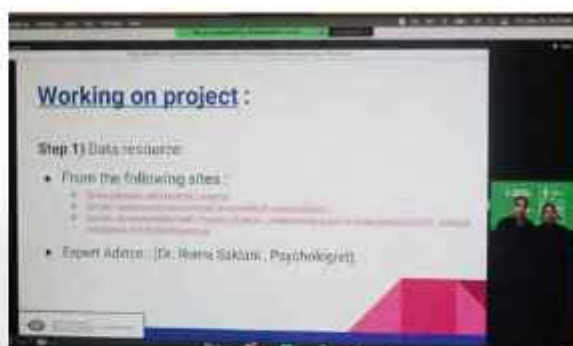

Amaan Ullah, Sameer Pundir and Vansh Pandey, of class XI, won the award for best editing in the 'Real to Reel' competition for their short film, Sunta Hun.

Ayushi Sharma of Class VII, bagged the 1st position in the national level competition of art 'Magic with Colors'.

Simran Joshi and Riya Baluni's project, 'Shubharambh', a tool to help the youth manage their health issues, received the encouragement award for the 'Youth Leader Contest'.

Anjali Dhiman and Siddharth Rawat of class XII were awarded the gold Level medals by IAYP, while 21 students of our school received the Bronze Level medals.

Infrastructural Additions

The following projects were undertaken to address the evolving needs of the school.

Toilet and Store Block

Construction of the new 4 storey Toilet and Store Block was started in September 2022. On completion, it will house the new store room and 3 floors of washrooms above. It will be used by 271 girls, 151 boys (students) and 54 female staff members.

Visual Art Room

The Art room was expanded to include an adjacent room to house the pottery and serigraphy sections, complete with pottery wheels and all apparatus. The facilities in the main Art Room were upgraded by the installation of - i) four computer systems and a SMART TV ii) A highlighted wall with focus lights and 6 new display easels iii) A textile art section with all required equipment for 'Batik' and 'Tie n Dye'.

Dance Room

The space vacated by the old Store Room was renovated and fitted with required accessories to function as a 'Dance Room'. It has sufficient space for teachers, musicians and a class of 25 students to practise during dance sessions.

TT Room

Another part of the space vacated by the old store room was converted into the TT Room. The floor was levelled and one TT tables was installed with appropriate electrical fittings.

New Classroom for Navjeevan

It was for the first time that two batches of Navjeevan class were to run simultaneously, and a new classroom was built at the southern end of the campus.

Cementing of Embankments

Embankments from the entry gate to the girls hostel were cemented for strength and fencing was installed to rule out trespassing of any kind.

Revamp of Sports Field

The sports field was revamped to address the problem of waterlogging during monsoons. Drains were built to egress water, redundant structures were removed and cracked masonry was repaired. The basketball, badminton and volleyball courts were relaid and the adjoining areas were covered with tiles.

Girls Hostel

The construction of the Girls Hostel extension recommenced in September 2022. The project had been paused earlier as cables passing over the building had to be relocated. Once complete, each floor will have a girls dormitory for twelve girls, with two washrooms and a warden's room with an attached washroom.

Child Safety mesh

Child Safety protection mesh was installed all over the campus - the Eastern and Western Blocs; the Girls and Boys Hostels.

Measures to keep Insects away

Mosquito nets were installed on the dining hall windows to keep out insects. 'All Insect Killer UV Tubes' were installed inside the dining room and the kitchen as additional prevention.

Renovation of Boys toilet

The existing 6 cubicle toilet facility for middle and senior boys is located down an uncovered flight of steps adjoining the Sports Field. It was built more than 12 years ago. As the toilets have suffered a lot of wear and tear, all 6 cubicles were renovated and new fittings and fixtures were installed.

New Bus

Amongst the movable assets, a new 32 seater bus was added to the existing fleet replacing an old bus. It will ply on our rural hilly routes.

Outreach

Districts Served

In all we provide education to children from 170 locations from 7 districts of Uttarakhand.

Districts covered:

Bageshwar, Dehradun, Nainital, Pauri Garhwal, Pithoragarh, Tehri Garhwal and Uttarkashi.

■ Purkal Youth Development Society
■ Our reach beyond Dehradun

Uttarakhand

Outcome

It is a matter of pride that so far 431 students have completed class XII, out of which 164 are pursuing graduation, 44 are doing a postgraduate course and 198 are employed. 11 of our alumni are currently working with us in various roles. 7 of our Alumni donate regularly to the PYDS fund. They are the tangible outcome of our efforts. It gives us a sense of satisfaction that we can pass the baton to those, who understand the spirit of our Mission and are capable of carrying the torch of education to every village of Uttarakhand.

Our donors and well wishers are the source of our strength. Their belief in our sincerity and ability, is the fountain that replenishes us. We draw strength from the goodwill conferred on us by them. To preserve this faith, we reaffirm our commitment and revisit our vision with renewed vigour each year.

Media coverage

Clean drive to pay tribute to Purkal school founder

Times News Network

Dehradun: On Saturday the first death anniversary of GK Swamy, the founder of Purkal Youth Development Society, which provides education free of cost to children from impoverished backgrounds, the school organised a cleanliness drive and a blood donation camp as tribute.

The school was started in 2003 with four students but got its CBSE affiliation 10 years later in 2013. It reserved 60% seats for girls and took students in from underpre-

lieged families in far-flung areas of the Himalayan state.

A spokesperson for the school said that Swamy had been a guide and mentor to hundreds of students and staff alike over the years and his passing away in 2021 had been a blow to them all.

"A clean up drive was organised at the school and in the areas nearby. Keeping in line with Swamy's motto, 'Life is for giving' a blood donation camp was also organised, in which school staff as well as volunteers from nearby villages participated," he said.

नृत्य नाटिकाओं ने भरा पीवाइडीएस में उत्साह

शुक्रवार को पीवाइडीएस में नृत्य नाटिकाओं का कार्यक्रम हुआ। छात्रों ने अपने प्रतिभा को दिखाने के लिए नृत्य और नाटिकाएं प्रस्तुत कीं। कार्यक्रम में प्रधानाचार्य जी का शुभ संकेत था।
